Page Curl, Full Screen I   2 Landscape Images

This page peel is a basic full screen version.

Setup: Layer 1 initial image; Layer 2 next image.

Page Curl, Full Screen II   2 Landscape Images

This performs a page peel on the full screen landscape image to reveal a portrait image underneath. The image in layer 1 is also used as the portrait image's background.

Setup: Layer 1= Landscape Image; Layer 2= Portrait Image.

Page Curl, Full Screen IIa   2 Landscape Images

This performs a page peel on the full screen landscape image to reveal a portrait image underneath. The image in layer 1 is also used as the portrait image's background.

Setup: Layer 1= Landscape Image; Layer 2= Portrait Image.

Page Curl, Full Screen III   1 Portrait, 2 Landscape Image

(New)

This page peel is full screen of a landscape image. It reveals a portrait image underneath. The portrait will then leave the screen and allow viewing of the background layer.

Setup. Layer 1= Landscape 1; Layer 2= Portrait; Layer 3= Landscape 2.

Page Curl, Portrait I   1 Landscape, 1 Portrait Images

A portrait image in the center of the screen is removed from view by a page curl of that image. It reveals the background image for viewing.

Setup: Layer 1 = portrait image; layer 2 = landscape image.

Page Curl, Portrait II   1 Landscape, 2 Portrait Images

The initial portrait image is page peeled away to reveal another portrait image below it. That image then fades to reveal the background image.

Setup: Layer 1=Portrait Image; Layer 2=Landscape Image; Layer 3=Portrait Image
